SIR,

Subject:- Establishment of an Industrial School at Krishnarajpet

In continuation of my letter of even No. dated 12-9-1935 on the above subject, I have the honour to state that the President, District Board, Mysore, has in his letter No.D2.Dis.195 dated 23-9-1935 (Copy enclosed) written to me that the District Board have expressed their inability to make any contribution for starting and running the proposed School and has requested me to start the School with State funds.

It is not possible to open new Industrial Schools in the State on account of want of funds. Experience has shown that the standard of the existing Industrial Schools in the State should be improved, equipments have to be increased and scholarships made attractive to get moffusil students. The Committee appointed by Government in this behalf have submitted their report to Government on the lines indicated above. Under these conditions, no funds are available for starting new schools and Schools of efficient type cannot be started with scanty funds.

In view of the prevailing financial stringency and in view of the fact that the District Board have expressed their inability to contribute any funds for the heavy sums required for starting of the Industrial Schools are not in a position to start a new Industrial School at Krishnarajapet.

I have the honour to be,

letter. The latter part of the sentence in the draft may perhaps be omitted. The proposal that we shd levy the same rate of duty as in Br India raises a very nice question which requires very careful examination. It seems to be for his discretion to the States in the matter.

It has to be examined whether in agreeing to levy an equal duty on sugar we accepted the general proposition that we would follow a similar policy in respect of other industrial developments in the State which may possibly have an adverse effect on the revenues of Govt of India. It has also to be seen whether the Treaty with the Br. Govt empowers the Govt of India to impose a condition of this kind on this State in cases where the latter finds it impossible to assent to it or whether it affords scope for an equitable settlement being arrived at in each case after a fair and full examination of all its aspects. It may sometimes happen that insistence on the principle of equal duty may confer an unfair

advantage on industries established in Br India but may effectively prevent similar industries from springing up in Indian States, Taking the case of Kerosine oil as an example, crude oil is not mined in India but is imported from across the seas. Port towns like Bombay and Karas enjoy a decided advantage in the matter for freight over inland towns like Sangaree. It looks as though the Govt of India are not to obtain a controlling voice in the matter of industrial development in Indian States on the plea of safe guarding their revenue position. It is conceivable that they may levy in the near future an excise duty on cotton cloth produced in Br India and insist on a countervailing excise duty being levied by Indian States as well. The case of sugar and Kerosine oil will be quoted as precedents in support of this plea for 'Co operation'

LEVY OF EXCISE DUTY ON KEROSENE OIL PRODUCED FROM IMPORTED CRUDE OIL IN INDIAN STATES.

SIR,

I am directed to refer to the correspondence ending with your letter No. 977/I. & C.79-34-17, dated the 7th March 1935, and to say that instances have come to the notice of the Government of India in which certain firms have approached the Governments of Indian States and have obtained monopolies or concessions for the preparation of kerosene oil from imported crude oil in their territories on the understanding that an excise duty will not be levied as in British India. The States concerned have thus been placed in a difficult position when requested by the Government of India at a later stage to impose a countervailing excise duty. I am therefore to request that before any plant for the refinement of kerosene oil from imported crude oil is permitted to be installed in Mysore State, the Government of Mysore will be so good as to co-operate with the Government of India by levying at the same rate as is in force in British India an excise duty on such oil within the State, in the same manner as they have already agreed to do in the case of sugar.

Gudibanda Weaving School - Acquisition of Lands.

I have the honor to state that Government in their order No. No. D. 10867-8/T. C. 32-29-11 dated the 29th March 1930 accorded sanction to the acquisition of 11 Guntas of land for constructing the Weaving School at Gudibanda.

The Assistant Commissioner, Chikballapur Sub-Division, in his letter No. L.A 183/29-30 dated the 24th July 1930, reports that -- after acquiring 11 Guntas of land out of S. No. 266/4, only 4 guntas will be left over and that this extent will not be of any use to the owner. He adds that under the powers vested in him, he has included the abovementioned 4 guntas also in the award and has fixed a compensation of Rs 56-4-0 for the total plot of 15 Guntas. This may be approved. The sum may be met from the provision of Rs 1,000/- under materials under 28 I & C - 8 Industrial Schools - iv Weaving in the budget of the current year. A copy of the letter received from the Sub-Division Officer, is enclosed for your kind reference.
